Re: Collin County Animal Services – Low-Cost Vaccinations/Microchip Clinic and Adoption Event Grant

We respectfully request Commissioners' Court's consideration of a grant application requesting \$2,500 for a Low-Cost Vaccinations/Microchip Clinic and Adoption Event Grant that would benefit the citizens and the animals of Collin County.

The ASPCA, in conjunction with Subaru, is offering grants to host adoption (and related) events at local Subaru dealerships. Our proposal is to offset a portion of the cost of the required sterilization (\$750), microchipping and vaccinations of 15 animals so that we can offer those 15 at a reduced price at an adoption event at Brandon Tomes Subaru in December, 2014. The remaining grant funds (\$1,750) would be used to offer reduced microchips and vaccinations for the first 175 community-owned pets at the event.

Thank you for your consideration in this matter.
